Benushika IshaRa

FULL STACK DEVELOPER · CREATIVE TECHNOLOGIST

Building pixel-perfect, high-performance digital experiences from Sri Lanka.

PROFILE

A self-driven Full Stack Developer and Creative Technologist based in Sri Lanka. I craft digital products at the intersection of engineering and design — accessible, performant, and visually compelling. Proficient across the modern full stack with working knowledge of cybersecurity fundamentals, responsive design, and delivering end-to-end client solutions on time.

EXPERIENCE

Freelance Full Stack Developer & Designer

2024 – Present

Self-Employed · Remote · Sri Lanka

- Developed responsive websites and web apps using React, Next.js, TypeScript and Tailwind CSS.
- Delivered full stack solutions including POS systems, e-commerce platforms, Telegram bots and agency websites.
- Integrated Supabase, PostgreSQL, Firebase and third-party APIs into production-grade applications.
- Applied cybersecurity knowledge: OWASP top 10 awareness, input validation, secure authentication flows, HTTPS enforcement, and rate limiting.
- Produced pixel-perfect UI/UX designs, brand graphics, banners, and social media creatives.
- Managed complete project lifecycle — discovery, prototyping, development, deployment and support.

SELECTED PROJECTS

Novagraphy

novagraphy.com

Graphic Design Agency Platform

Next.js · TypeScript · Tailwind CSS · Supabase

Full-featured design agency platform with client portal, project management, and CMS — helping businesses grow their brand through curated creative services.

Ceylon Gems

github.com/Dev-ixAAr

E-Commerce Marketplace

React · Vue.js · Framer Motion

Online marketplace for ethically sourced Sri Lankan gemstones with origin traceability, smooth animations, and a curated product catalogue.

WaEnhancer

demo-waenhancer.netlify.app

Product Landing Page

Vue.js · Three.js · Firebase

High-performance landing page for a WhatsApp enhancement module featuring immersive 3D visuals and real-time feature showcases.

Anime Platform

github.com/Dev-ixAAr

Anime Streaming & Download Website

Next.js · Tailwind CSS · Firebase

Modern anime-focused web platform with user authentication, categorised content browsing, and download features.

Telegram Bot

github.com/Dev-ixAAr

Feature-Rich Telegram Bot

Python

Multi-purpose bot with music playback, media downloads, and rich user interaction features.
